

Internet of People

Core Report - November 2018

Management

New Exchanges

- [Finex](#)

Partnerships

- IoP is now on [Blockfolio Signal](#)
- IoP is now on [Delta](#)
- IoP will be listed on [Changelly](#). Date tbd

We've been working closely with the Vendible team to get that launched as soon possible and with features that benefit the IOP community, Vendible which will be supporting IOP as one of the three primary currencies out of the gate is now onboarding for early access. So if you're a merchant, a potential customer or interested to become an affiliate, visit [vendible](#) for more information

Main Topic

We invested the most of the time in the integration of the new techstack from the like-minded crypto project and the creation of the new whitepaper.

Marketing & Communication

MarCom team are contributing to the restructuring of IOP. Thus limited activity took place.

- Keks has heavily involved in the strategy meeting and the preparation of the whitepaper for IOP future direction.
- Keks contributed to the Shift Conference in Zagreb. He presented a bombastic presentation about How IOP will Unf**k the internet. He showed the relevant meaning and essential task we have ahead, fixing the broken internet through Mercury and the different tech stack we quietly produce with libertaria. Lean back and enjoy the show: <https://youtu.be/OE5-poZVdsg?t=24280>
- Amon spoke at the Budapest Blockchain conference you can view the recorded live stream here <https://www.facebook.com/loPGlobal/videos/1619506501527355/> at the same event Wiggy also held a workshop.
- Roger is building an infrastructure for potential collaboration with an entrepreneurial academy to promote and facilitate IOP awareness in Canada.
- Moritz still providing the informative video summary on the first week of each month, presenting easy to assimilate and to the point information concerning our community and review of all activity IOP chapters are involved in worldwide.
- Cristiaan (Memnon) visited the Karlsruhe office to sync up with development team about the upcoming changes and Dieter (dww) Kris (Keks) and Amon (anfauglith) visited Budapest together to sync up the the development office there. We spoke in length with Aarpad, Wiggy and Bartmoss about the plans and possibilities for future development and about the new whitepaper.
- Juan spoke at “Ensenada Disruptiva Conference” (north Mexico) about IOP and Education Division in November 7th.

UI / UX & Graphic Design

Iliana has been developing the new 2019 corporate design and providing other promotional materials.

Community Care

The month november saw several crowdfunding initiatives from the community. For instance from the Mexico chapter.

¡Necesitamos tu ayuda!

La comunidad Blockchain mediante la Estrategia de Desarrollo de Competencias en Blockchain de la Universidad Autónoma de Nayarit te invitan sumar esfuerzos donando bitcoins o altcoins a la Wallet aperturada para recibir tus donativos.

Una semana después del paso del huracán Willa, 180,000 personas en Nayarit aún sufren los efectos de las inundaciones

El paso del huracán Willa que azotó el pasado 24 de octubre la costa del Pacífico de México ocasionó irreparables daños en varios poblados del occidental estado de Nayarit, donde, luego de la crecida y desbordamiento de diversos ríos, barrios enteros quedaron sepultados entre caudales de agua. Una semana después, muchos continúan incomunicados, sin víveres y a la espera de ayuda.

Para donar Internet Of People (IOP):
pDUSSdQHnW4wSvUySiMgWbqjnmE6RWW

Lo recaudado será destinado a un fideicomiso creado para la ayuda de damnificados, mismo que se integra con miembros de la comunidad universitaria de reconocido prestigio. Los recursos serán manejados con absoluta transparencia por lo que se estará informando pertinentemente el seguimiento de los trabajos mediante nuestras redes sociales.

COMUNIDAD BLOCKCHAIN
UNIVERSIDAD AUTÓNOMA
DE NAYARIT

We also welcome a lot of new members to our community both in telegram and discord. In telegram we've had another look at the admin team and restructured that so that there's now again only a core team of admins who are all active.

Similarly we are preparing to restructure our discord in relation to the upcoming whitepaper. The plans are to simplify the discord and to make entry more low barrier. Maintaining that good community we we have but simultaneously being more open to the casual visitor that visit. More about that next month.

We are also exploring extra ways to support and onboard new members via direct chat and playbooks for new users. As well as voice support. More on that in the new future.

Education

- The Nayarit Autonomous University(UAN) organized in November 22th the second blockchain conference speakers coming from Consensus, Legal Hackers and Bitcoin Monterrey.
- We organized with UAN 2 meeting for track the Education Project.

Member & Chapter Services

Seven new chapters joined IOP this month. We welcome: EvolutIOP, IOP Marketeers, Open Sea IOP, Belt, Africa, Excoinge and Tech-time.it. We wish them all the good luck in spreading the word about IOP.

Risk and Compliance

- Provided commentary on SEC and VFA related inquiries related to internal announcements.
- Wrote general topic copy for Argentina Chapter IoP handouts provided at an Argentinian public compliance event.
- Provided commentary on crypto exchanges issues related to DEX and SEC concerns arising from enforcement action on Nov 8th against an unrelated crypto project.
- Reached out to Bittrex for comment on VFA requirements for international platform.
- Whitepaper review pending.
- Additional legal review by independent third party pending white paper final draft.
